

## AMX PathForward Assessment Workshop

This System health check workshop is for you if you are a JD Edwards customer looking to create or validate a “path forward” around your JD Edwards investment.

*Extending* – Gain a better understanding and take advantage of Oracle “Edge Applications” for JD Edwards – e.g. UPK, BI Publisher, Business Intelligence, Oracle CRM.

*Integrating* – Integrate to in-house or third party applications using Oracle standards based BPEL middleware or other tools/methods.

*Upgrading* - Weigh your options of upgrading - Value, best approach and readiness considerations.

### KEY BENEFITS

- Review the company’s system in its existing state.
- Identify areas of inefficiency in current processes.
- Review desired improvements.
- Outline proposed solutions JD Edwards affords the organization.
- Discuss effective training and assessment strategies.
- Recommend next steps.

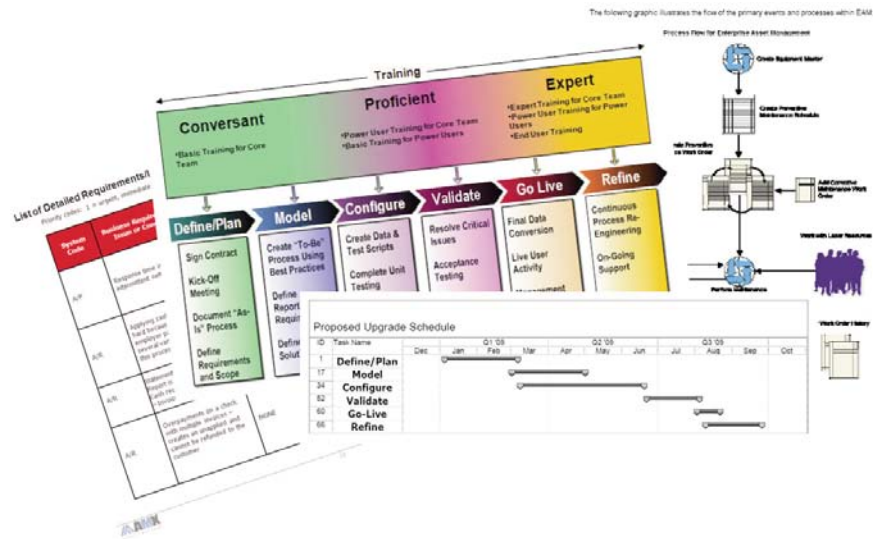

### WHO SHOULD ATTEND

- Key executive stakeholders
- Subject matter experts
- Reporting specialists
- CNC specialists

## DELIVERABLES

- Success definition
- Prioritized process driven gap analysis
- "Path Forward" options considering scope, cost, schedule, & resource requirements
- Readiness assessment - functional & technical
- Summary findings and recommendations
