

## Corporate Headquarters and WorldSoftware™ Development and Competency Center, Idaho Falls, Idaho

AMX International's corporate headquarters are located in a 21,000 square foot facility in Idaho Falls, Idaho. The facility features a Rapid Response Team dedicated to users of J.D. Edwards AS/400 centric, RPG-based WorldSoftware. It also serves as home for our executive offices, information technology, human resources, marketing, accounting, and administrative support. AMX International will continue to provide customers with the same services as in the past - software installation, training, upgrading and customizing J.D. Edwards software.

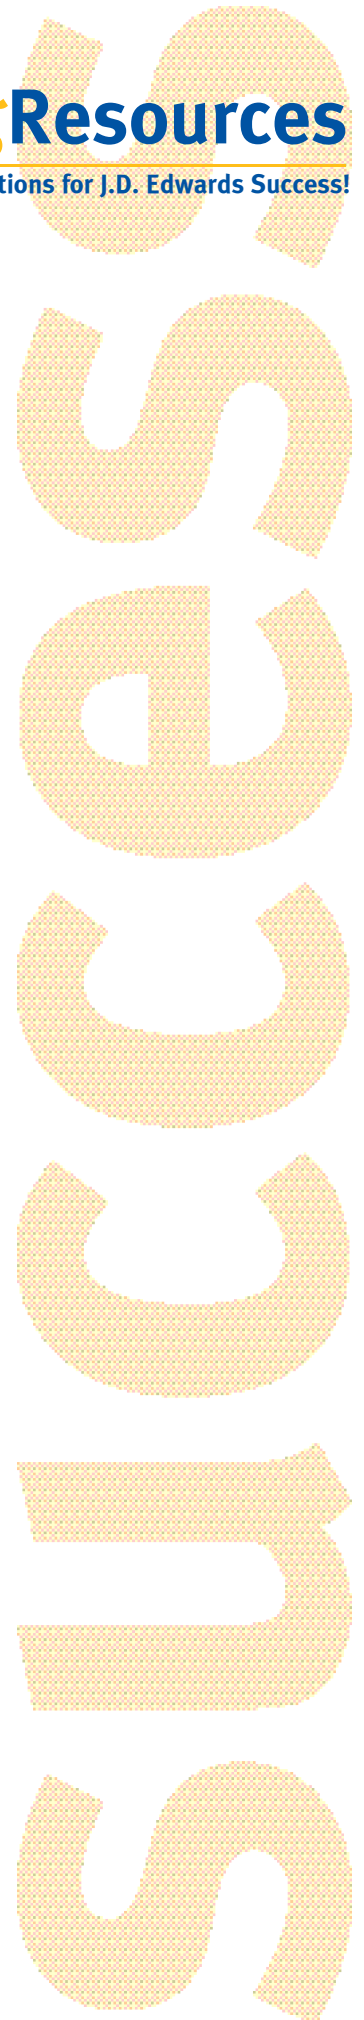

In addition, there are some new services that will be more widely available as a result of the new facilities. AMX International is branching out to help third party software vendors integrate their solutions with J.D. Edwards. Having recently completed such interfaces for Agile Software and Meridian Project Systems, we are hoping to expand that experience into relationships with additional J.D. Edwards partners. Clients will benefit from Remote Work Solutions, a service that allows consultants to service clients anywhere in the world from the new center via dial-in access. This has proven extremely beneficial and cost effective for upgrades and ongoing support.

## OneWorld® Development Lab and Competency Center in Salt Lake City, Utah

In response to the growing demand for J.D. Edwards OneWorld products and services, AMX International has established a OneWorld Development and Competency Center. The 10,000 square foot facility includes a OneWorld lab and training facility, can accommodate a staff of up to 65 OneWorld and e-Business developers and is home to our CNC technical team. Through this office, AMX International is able to provide an array of on-site and remote services to enhance J.D. Edwards OneWorld software functionality including new installations, upgrades, new application, development, XPI adapters, modifications, interfaces, conversions, enterprise and financial report writing, technical training, web development and CNC consulting and support.

## Resource Center

AMX International's Resource Center is designed to provide J.D. Edwards managers, sales executives, and customers with a single database of qualified J.D. Edwards consultants. It serves as a single point of contact to match the needs of our customers and J.D. Edwards with specific application and technical resources. AMX International continues to be at the forefront among J.D. Edwards business partners by being the first to offer immediate access to key information on over 100 consultants including skills matrix, availability, and resumes.

## About AMX International

Founded in 1988, AMX International is a leader in streamlined enterprise application solutions for value driven buyers worldwide. The Company is known for its superior systems integration of J.D. Edwards software applications. Over 500 customers have turned to AMX for the company's complete solutions that integrate the industry's best vendor applications with highly cost effective implementation consulting services, complimentary software products and custom development.
